Introducing a new retail concept of well designed gift items.

It's a challenge for every consumer:
The search for the 'perfect gift'.

Original yet practical. Desirable yet affordable.
This is where XDModo comes in.

Creating a broad range of gift items all based on the same idea. A brand new concept and a true profit generator:

XDModo Wannagives!

2011 Catalogue

We are excited to introduce to you the new XDModo catalogue. With 85 new items we further completed the wide range of luxurious yet affordable gifts. Next to a great expansion in the already famed ecological gift line, we also launch a totally new line with desk design items.

We don't think this is about adding more and more features. It is about elegant solutions. Making it smarter and eliminate unnecessary complexity, standing out because of their design and functionality.

Taking everyday products to a higher level, making them unique and affordable at the same time.

The power of packaging

At XDModo we believe that the presentation of a gift is just as important as the gift itself. The luxurious gift packaging is the first element the recipient will see, so it is essential that this creates a lasting impression.

Remember... you will never get a second chance to make a first impression, so the way the gift is presented should indeed reflect the quality of the gift itself!

In the store, the packaging needs to clearly and quickly communicate what the product does and how it will benefit the user. Packaging is one of the most powerful sales tools available. That's why we have spent so much time and effort into it.

Make it surprising.
Different.
Memorable.
Make it a Wannagive.

XDMODO

History

The XDModo concept of Wannagives is created by Xindao. A well known name in the field of design gift articles, established in 1986. Xindao is a Dutch company with a strong presence in China. Our Shanghai office plays a key roll in design, product development, purchase and FOB (Free On Board) sales to worldwide distributors. Because our design studio is located in Shanghai, our designers have direct access to supplies and factories. This makes it possible to react quickly to new market trends.

The brand XDModo was launched in 2008, aiming initially at the retail market in Europe. Now the items are sold in over 35 countries worldwide and we are still expanding every day!

reddot design award

Design

Design is one of the most effective ways to differentiate oneself. We don't think this is about adding features. It is about elegant solutions. Making it smarter and eliminate unnecessary complexity, standing out because of their design and functionality.

Taking everyday products to a higher level, making them unique and affordable at the same time. That is the challenge of our XD Design team. Our design team has won multiple international awards, read more about this on the next page.

Design Awards

Recently Xindao has received the red dot design award for three items from their collection. The winning items are evaluated according to the highest standards. The adjudication process follows a canon of strict criteria such as; degree of innovation and design, functionality, ergonomics, formal quality and durability.

The red dot design award

The red dot design award is an initiative of Design Zentrum Nordrhein Westfalen. A jury of 21 prominent professionals voted for the three Xindao items.

The good design award

The Chicago Athenaeum's Good Design Award was established in 1950 by Edgar J. Kaufman Jr. and is one of the world's oldest and most celebrated awards programs. The program recognizes designers and manufacturers for advancing new and innovative product concepts that push the envelope beyond what is considered standard product and consumer design.

GOOD DESIGN

reddot design award

Eco

ECO has become a healthy trend. People realize more and more that eco friendly products are better for the environment. Besides saving water and energy, many of these products also reduce your home bills.

Take our XD Design Solar Tree, one of the many new solar items, which catches sunlight with its solar panels and converts this to powerful energy. There's also the standby button, which will turn your computer into energy saving mode with a touch on this button. Our design team also compiled a couple of new saving sets. A perfect gift for people who care.

Give more, take less!

XD Design Solar tree

This XD Design Solar tree has 9 leaves covered with solar surface which charges your electronic equipment by using sun cell technology. A real eye catcher for each desk. Contains a usb, and mini usb port, a mini usb cable and a manual.

Size: 22 cm height

Registered design®
P280.132

inc uded

Renewable energy caught in a stylish way. This solar tree creates its own energy by using sunlight.

Registered design®

P280.142

Solar radio

This radio can be charged by solar energy and/or dynamo! This will save you on batteries and it is better for the environment too! Great for emergencies, or for people who care about the environment. Battery included

Size: 7,4 x 5 x 8,3 cm

P269.302

Solar Charger

This solar charger (with rechargeable 1000 mAh battery) is the perfect device to charge your electronic equipment. It charges by using sun cell technology or by plugging in the USB. It can also charge directly from the sunlight. Includes cable and 6 plugs.

Size: 10,5 x 5 x 1,3 cm

P280.062

SOLAR

Solar energy emerges directly from the sun. Sun energy decides the climate and weather and supports virtually all life on Earth. Heat and light from the sun, along with solar based resources such as wind and wave power and hydroelectricity, account for most of the available flow of renewable energy. Solar energy technologies harness the sun's energy for practical ends. These technologies date from the time of the early Greeks, Native Americans and Chinese, who warmed their buildings by orienting them towards the sun. Solar items are a modern way to save energy consumption by prolonging and recharging batteries directly from the light of the sun. People have used this power for thousands of years – you should try it as well.

Mini eclipse solar torch

This well designed mini eclipse solar torch with 2 LED's can generate power for 1 hour by using sun cell technology. Packed in luxury gift box with manual.

Size: 8,5 x 3,1 x 1,1 cm

Registered design®

P269.173

Energy Saving Set

With this energy saving set you will easily reduce your energy costs. It contains the eco button, by pressing this button your computer turns into sleep mode, a solar key chain torch with 3 LED's, 2 XD design 1500mAh Ni-Mh AA rechargeable batteries and an USB battery charger.

Size: 27 x 12,5 x 5.3

Registered design®

P269.357

Saving set

This eco-friendly gift set includes a 8W (E27 fitting) saving lamp and shower coach to save up to twenty thousand liter of heated water per year! You'll save energy and reduce your power and water bill too. A real eco-friendly gift!

Size: 11,8 x 12 x 5 cm

P269.235

Laundry dryer set

This dryer set will save you energy and money, as the 2 dryer balls will reduce the drying time of your laundry by 20%. The set also includes 10 wooden clothes-pegs without metal and a green bamboo fibre clothes line. A great ECO friendly gift!

Size: 21 x 20 x 7 cm

Registered design®

P269.247

DRYER BALLS?

Drying balls can reduce your drying time up to 25%! They reduce waste fluff and creasing in laundry. The pins? Air drying is becoming more and more popular!

XD Eco travel set

Travel the eco responsible way with this XD ECO travel set. Includes a head pillow made of recycled PET, eye mask, bamboo fibre socks and earplugs.

Size: 24 x 18 x 7 cm

P820.259

HOW DOES IT WORK?

One of the easiest ways to save a substantial amount of money is to check the pressure of your tyres each month. With the right tyre pressure you can save up to one tank of petrol per year. That's not all, your tyres will last longer and you will drive much safer!

Digital tire gauge

Improve your gas mileage by up to 5% by keeping your tires inflated to the proper pressure. This digital tire pressure gauge also includes a tire tread-depth gauge. Ranges: 5-100 PSI / 0,5-7 Bar / 50-700 Kpa. Including 2pcs cell batteries.

Size: 13,8 x 3,8 x 2 cm

P239.192

Deadly plastic. Marine trash, mainly plastic, is killing more than a million seabirds and 100.000 mammals and sea turtles each year according to the United Nations.

Plastic bottle tops are often found in the stomachs of dead sea lions, dolphins, sea turtles and others.

The Battle

Make it your battle. And your bottle.
More and more companies are joining the battle.
It's an easy step saving the environment and lots of money at the same time. The bottles are branded and can even be personalized.
Finished with your logo and printed in your company colors if you like.

The Bottle

ECO friendly water bottle

This sturdy, stainless steel water bottle (0,65 l.) with lockable cap doesn't only have an elegant design, it's also eco friendly and dishwasher proof.

2pcs recycle waste bags

This set of 2 recycling waste bags can help sorting plastic and paper

Size: 41,6 x 29 x 29,2 cm

P795.019

WHAT IS BIODEGRADABLE? WHAT IS COMPOSTABLE?

A biodegradable product is able to be broken down into its constituent natural elements and is absorbed by the environment. This is also possible with certain chemicals although it takes a much longer time. What is more important is when a product is also compostable! “Compostable” means that it is made from organic (plants) matter that can broken down in a compost system. Compostability is a more effective way for the disposal of products.

Herb garden

This herb garden pot, made of bamboo fibre, comes with seeds of chive, parsley and basil. It is packed in a gift box together with the manual.

Size: 16,5 x 16,5 x 5 cm
